STORYBOARD: JANE THIRSTMORE

BY JOSH DOYON

Jane Thirstmore is your average soccer mom – rich, busy, and popular with her son's teammates. She recently divorced from her husband Steve, and is living her rich single life to the max.

Jane spends a vast majority of her time in her brand-new Range Rover. Between driving her kids to school, soccer, and friends' houses for sleepovers, Jane's schedule is very busy.

Jane loves hanging out with the team moms at lunch – but with her tight schedule, she never has time to plan their next meet-up and doesn't know where to eat!

To solve her issue of never being able to decide where or when to eat, Jane downloads ModDecisive's decision making app!

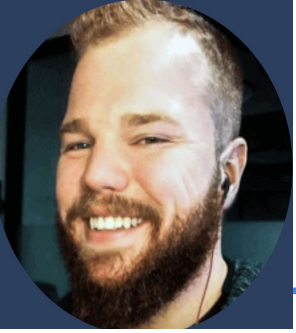

Jane tells all of her friends about the app – they love it! Deciding what place to eat at and when it best fits their schedule is now a breeze.

Jane and all of her friends now no longer have to worry about making stressful decisions. All of their problems are solved with a few simple taps, and they are able to continue shuttling their kids around.

Storyboard(Steven Smirenoff)

By: Ardoine Docteur

Mr. Smirenoff has awoken from a restless night. The night prior, he spent most of his time grading assignments.

While completing his grading, he didn't realize that his 8:00AM lecture had resurfaced, which caused him to rush through his morning routine. With abrupt sadness, he rushed out of his house.

While driving to work, he began to wish that he had an app that makes decisions for him. He believes it would relieve a lot of stress.

When he arrived to the College of Engineering and Computing, he expressed his problem with one of his colleagues. As a result, his colleague recommended Mod Decisive's Decision Making App.

After accepting his colleagues request, Steven started to see results. He was no longer stressed, and he became more organized.

Now, Steven enjoys his occupation once again, and adores the stress-free life he now lives.

Wendy Testaburger is an average 20 year old college student who's too busy to worry about things like what she's going to eat so she decides to download our app and give it a try.

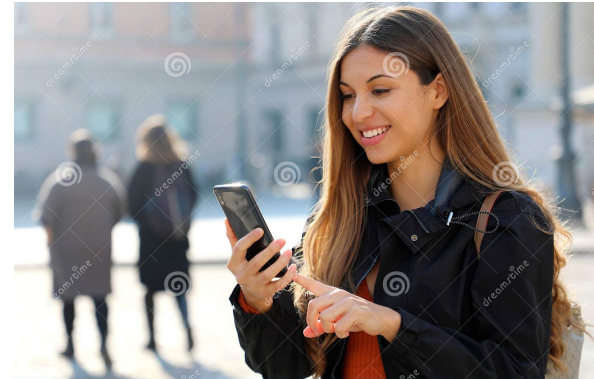

Wendy uses the app to see what different types of food places are around her and uses the filters to find some options before having the app pick one for her.

Wendy likes the choice the app makes and decides to use the built in access to GrubHub to order her food and have it delivered to her.

Wendy loves the app and how convenient it is for her, she now uses the app regularly and even recommends it to friends.

Storyboard

By Jamius Cheatham

This is Phillip O'Malley. Phillip is your regular, all knowing and ordinary Family Guy. Every day is the same routine for Phillip. He goes to work, gets into some shenanigans with his family, occasional fights with a chicken, and ends the day at the Drunken clam with his boys

One day, while at the bar with his boys, he got into a burst of tears. Most likely one of those mid-life crisis. He got into a huge sob story about his life is meaningless and everyday has been the same for the last decade. Same old same old and he's tired of it

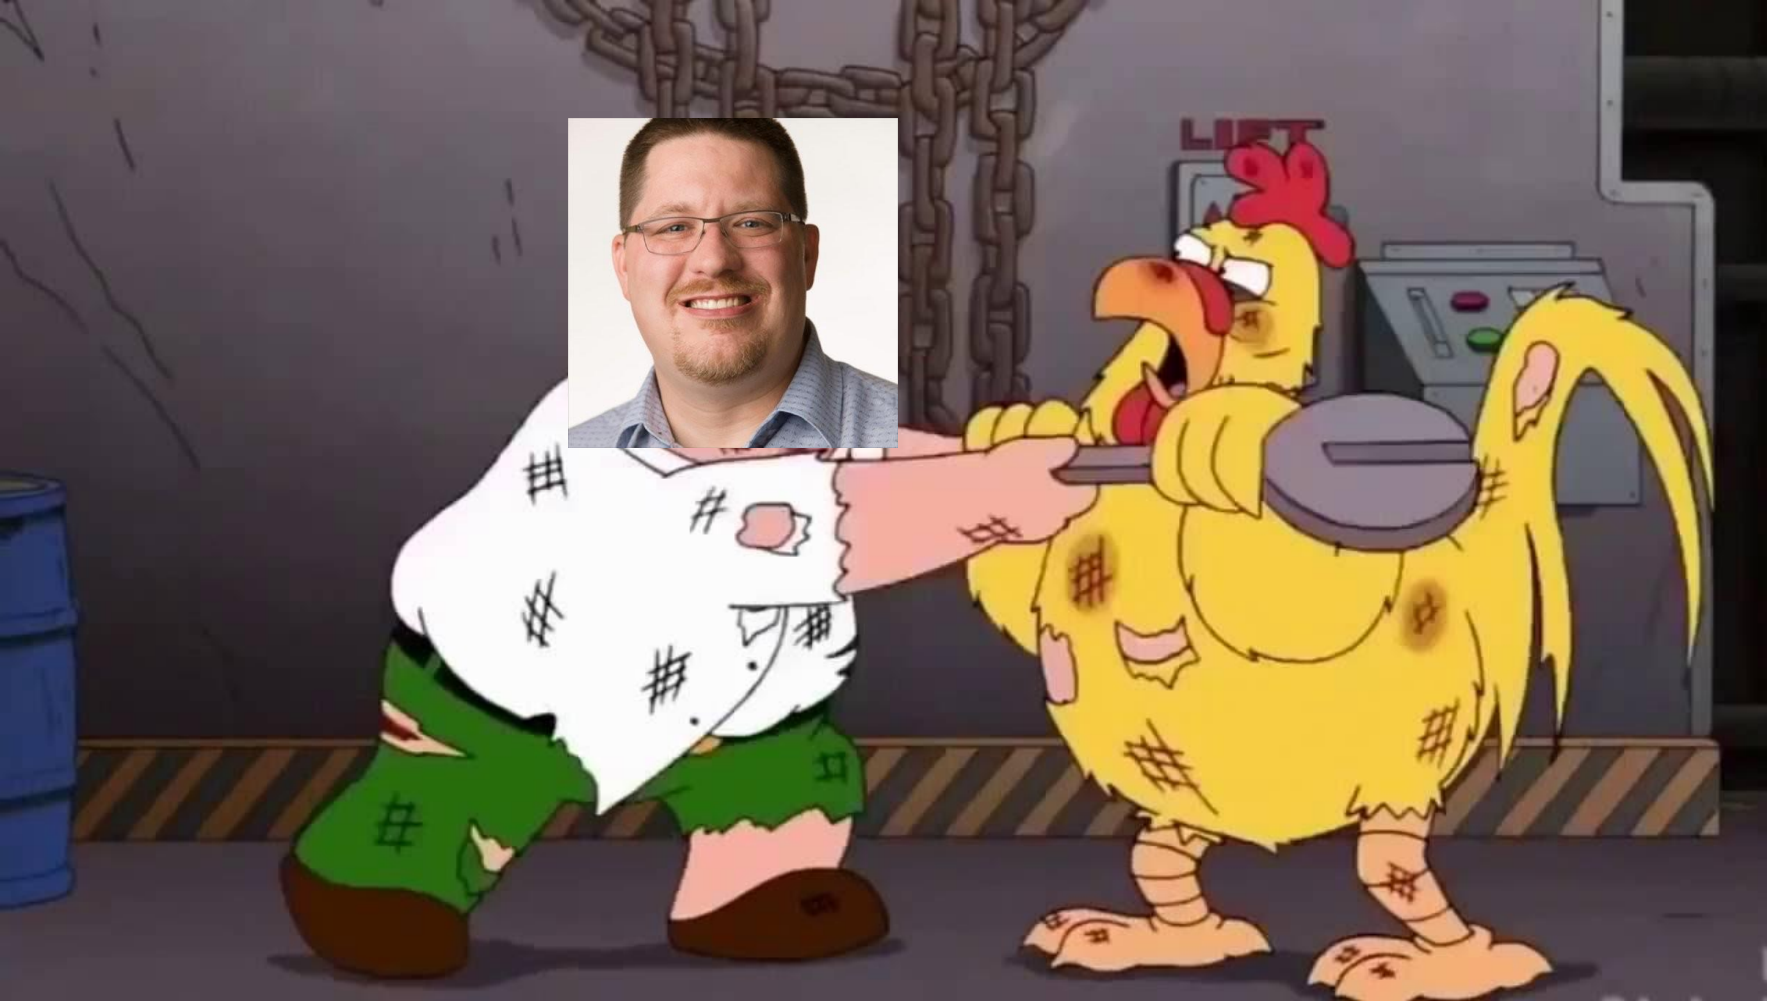

While at the Clam, a couple of Phillip friends show him an app. This app would cure Phillips mid life crisis as it would make decisions for him. It would be the perfect tool to spice up his life and break the cycle of everyday being the same

Ever since Phillip downloaded the Decision-making app by Mod Decisive, he has been happy. His life is now not the same thing every single day. Everyday is a new adventure for Phillip and he enjoys that.

Although his days are now different, some things just won't go away....

Storyboard: Barry McKocner

By: Juan Silva

Barry McKocner has been working long hour shifts at his job and is happy that he is about to get off and have free time because he's ready to hang out with the boys

Barry McKocner just clocked out of work and is driving off to meet up with his boys

Barry and his friends meet up at one of their friends house and they start thinking about they want to do

Barry then later goes searching on trying to find an app that can make decisions for him and his friends since they waste so much time thinking about making moves

Barry finds out about this decision making app made by ModDecisive which he finds impressive so then he tells his friends about it and how this app decides for you whether if it's going out to eat or making moves

Barry's life has changed ever since he found out about this decision making app because it's saves him and his friends a lot of time and it solved their problem of always trying to figure out on what to do
